Harmony

Dream it, live it and all will be well. These award-winning designs are a tribute to Harmony, Tranquility, Purity, Unity, Integrity and Intimacy. Six characteristics we need in our lives and want in our homes.

When every element is pleasing, they all come together to create the perfect whole. Every detail sings true, every accessory strikes the right chord. In harmony we trust.

Tranquility

It's a disposition free from stress, a state of peace we need in our existence, and need in the kitchen. We found it here and everywhere around us. And then we knew, we couldn't live without it. Let tranquility abound.

Purity

We've been taught purity of mind, body and soul. Let's not forget the kitchen. Purity in color, style and elegance. We see it before us and can only imagine the grace in all the other rooms. With purity comes comfort; now we rest easy.

Unity

When it all works together, there is a single-mindedness of achievement. We're at one with continuity and accord - a unifying of all that we desire in the most important room in the home. Unity, for all.

Integrity

A sense of completeness fills the air. You can tell - there's an unwavering devotion to quality that we call integrity. It begins and ends in the same place. Staying true to your wishes. Integrity must rule the day.

Intimacy

It's in this kitchen and it's in our hearts. And no one should live without it. An intimate detail here, an unnoticed perfection there. It adds up to a close and warm friendship. Intimacy brings kinship and there's no better place for that than in the kitchen.

Great Space.

The designer's inspiration should be fashioned from the family's wish list. It was a new breakfast room, a fireplace, a new space from top to bottom. Should it be called a Kitchen, or should we call it a Great Room? Great design, great kitchen, great room.

Perfect Place.

It's called a perfect place. For cooks. For guests. For family. We couldn't agree more. They call it contemporary and functional for all members of the family. We call it an ace.

A warm embrace.

Warm and inviting. That was the inspiration, that was the result. It says to us, "Welcome Home" – two words we should hear everyday.

Words from a winner.

"The clients each had their own ideas and expectations. That is one of the reasons we chose Holiday Kitchens. It gave us the flexibility of being custom, and meeting their needs and wants. It gave them custom colors and shapes that were needed to give the kitchen depth and perspective."

Two designs full of grace.

One French Country. The other Euro Chic.
Holiday Kitchens allows you the flexibility to
choose the look and make it true.
True Winners from Holiday Kitchens.

Your vision is our specialty.

You've worked hard to make your home what it is today – that sacred haven where you retreat from the rest of the world. Your home reflects the way you want to live. Dare to dream about what you want inside this special place. Then leave the reality part up to Holiday Kitchens.

As a division of Mastercraft Industries, Holiday Kitchens' tradition of making custom-built cabinetry dates back to 1946. Although our tools and techniques have changed over the years, our promise is the same – to craft only the finest custom-made products for your home. Our remarkable artisanship starts in our own mill, where we have complete control over the raw materials we use. This unique aspect of our production process means you have an array of choices that you won't find with other manufacturers.

Generations have trusted Holiday Kitchens to help bring their dream home to life. Now it's your turn...

About Robin Wilson

Nationally recognized eco-friendly and healthy home interior designer, Robin Wilson has licensed her name to Holiday Kitchens for custom cabinetry. Her work is influenced by leading architects, Paul R. Williams, Frank Lloyd Wright and William McDonough. The cabinetry line infuses the eco-friendly principles: sustainable, reusable, renewable and non-toxic.

Born and raised in Austin, Texas, she currently lives in Manhattan. With her foundation-to-the-furniture approach to design, she and our team work to identify unique details for our cabinetry. Her firm is a member of the U.S. Green Building Council and is an affiliate member of the International Interior Design Association. Notable projects: Good Housekeeping – LEED certified house (2008); Esquire – Ultimate Bachelor Apartment terrace (2007); Peninsula Hotel NY – spa salon (2007). She has appeared on CBS, NBC, ABC, PBS, CNN and HGTV.

A team of innovators

Based in Wisconsin, Holiday Kitchens is one of the top ten custom kitchen cabinet manufacturers in the United States, offering one of the most versatile and affordable lines of cabinetry in the industry. Creating value while maintaining a sustainable future is our responsibility that we take seriously. Holiday Kitchens sets the highest level of production standards for itself and its suppliers, and is a proud member of the Kitchen Cabinet Manufacturer Association's (KCMA) Environmental Stewardship Program (ESP).

Working together to bring you quality

When you pair one of the nation's top custom kitchen manufacturers with one of the nation's leading eco-friendly designers, you have a partnership that ensures your cabinetry is beautiful, functional and environmentally friendly.
