MORE THAN DESIGNS FOR KITCHENS.
DESIGNS FOR DREAMS.

Finish/Wood: Parfait with Mocha Glaze Maple
Door Style: Winchester Square #300

Every Holiday Kitchen style has a unique character and quality. We've designed them that way for one simple reason... your family. No two families are alike and their needs are as varied as their lifestyles. At Holiday Kitchens, we listen to what you say before we build. We know that your cabinetry must serve your family's needs, but it must also reflect your lifestyle. We've been in the business of fine cabinetry for over 60 years, making your dreams come true.

QUALITY BUILT TO LAST A LIFETIME

When you work with Holiday Kitchens, you're working with people who have a dedication to quality that is simply unmatched in the industry. From the materials we use, to the craftsmen we employ, to the dealers we select, everything is focused on delivering quality to the customer – a level of quality that exceeds your expectations.

You and your designer have choices you may not find elsewhere. With multiple lines to fit all budgets, you're sure to find the kitchen of your dreams.

INSPIRED BY EUROPEAN STYLING DESIGNED FOR AMERICAN DREAMS

Cabinet Construction. Cabinets are constructed using 45 lb., ¾" industrial board for the sides, tops and bottoms. The board is laminated on both sides using heat, pressure, and a thermal setting adhesive. PVC edge-banding is applied on all front, top and bottom edges. Wood dowels and glue are used for durable construction. The backs of both wall and base cabinets are 45 lb., ¼" board and are grooved and glued into sides, tops and bottoms to keep cabinets square. Note "green" options below.

Base cabinets have ¾" sides and bottoms, with ¾" cross-ties in front and back on the top of the cabinet. All front edges are edgebanded to match the doors.

All Wood Construction Available. Plywood is available as an optional material in constructing the cabinets at an upcharge. All cabinet components, including the shelves, are all wood, standard with a natural maple wood interior. Consult with your local Holiday Kitchens dealer for more details.

Shelves. Cabinet shelves are 45 lb. ¾" industrial board with laminate applied to both sides. The front edge is banded to match. Wall cabinet shelves and base cabinet shelves are adjustable, full depth and are held in place by metal shelf (spoon) clips. All wood construction shelves will be ¾" natural maple plywood.

Doors. Cabinet doors are available in many different styles, including solid panels, mortised and tenoned framed or mitered, HPL, laminate, foil, wood, exotic veneers, high gloss, and metal. Create your own look with your choice of outside door edge profiles.

Drawers. IDC cabinet drawers feature 5/8" solid wood drawer boxes with dovetail joints. ¾" thick fronts to match door style and ¼" maple plywood bottoms. Hettich Quadro drawer guide features include full extension, self closing with silent close and are rated at 100 lbs. All top edges of the drawer box are eased.

Toe Kick System. Base cabinets are supplied with tubular legs that are adjustable between 3-7/8" and 6-3/4". Toe kick supplied, 2" from front of toe kick to front of cabinet. As an option, you can request to have the base sides extended down and omit the legs. (IDC Estate base cabinets are standard with base sides extended down.)

Green Options. Looking for "Green" options? Request to have your cabinets constructed using our renewable wood fiber and no added urea-formaldehyde resin materials. Natural finish wood and bamboo are also available to further enhance your environmentally-friendly home. Consult your local Holiday Kitchens dealer for more details.
