# Quality Built to Last a Lifetime®

We're dedicated to you and we're dedicated to quality. When we work together it will be right. That's because Holiday Kitchen's professionals are quality technicians. From our designer partners and lumber graders, to the hard working folks on the production line and the packers and shippers who make certain everything is in excellent order.

With us, it's all about you. More choices and more options to make your kitchen dreamlike. But in our case, it's not a dream; it's about making the dream a reality. We do it everyday, for thousands of families every year. With our dealer designers – who are the best in the business – we can't wait to do it for you. Cheers!

Holiday Kitchens' Traditional and Elite Design Collection features: "Master Finish" coating system, dovetailed solid wood drawers, a state-of-the-art design drawer guide system, and over 100 door styles available in oak, cherry, maple, alder and hickory.

## Elite Design Collection

**Cabinet Construction.** Cabinets are constructed using 5/8" plywood sides, tops and bottoms. Wall cabinets are 14" deep. Base cabinets have 3/4" solid wood side rails for attaching counter tops. All cabinets have 3/4" x 2 9/16" solid wood hanging strips for attaching cabinets to the wall. Tops and bottoms of walls and bottoms of bases are glued and fastened into dados in the cabinet sides and frames.

**Finished "Furniture" Ends.** 3/4" plywood ends are flush with the face frame and finished in the same color. Natural maple plywood is standard for all interior surfaces. For an additional charge, you can specify that the interior wood and finish match the exterior of the cabinet. Wall cabinet bottoms will be maple and stained or painted with the same materials as the doors and face frame.

**Shelves.** Cabinet shelves are 3/4" thick plywood with edge banding applied to the front. Wall and base cabinet shelves are adjustable, full depth, and are held in place by metal shelf (spoon) clips.

**Doors.** Cabinet doors are available in many different styles, including solid panels, mortised and tenoned or mitred. Create your own look with a choice of edge profiles, panel profiles, and frame size. Choose from a variety of hinge and overlay options including flush inset or beaded inset.

**Drawers.** Drawer boxes are 5/8" solid hardwood dovetailed construction with 1/4" maple plywood bottom. Guides are Hettich Quadro (full extension - silent close) rated at 100 lbs. mounted to cabinet sides using the **EZ<sup>®</sup>STAL** system. All top edges of the drawer box are shaped and hand sanded. 1/2" thick drawer bottoms are also available.

## Traditional Design Collection

**Cabinet Construction.** Cabinets are constructed using 1/2" plywood sides. Tops and bottoms of wall cabinets are 1/2" industrial board. Wall cabinet bottoms are finished maple. Base cabinets have 1/2" thick industrial board bottoms and 3/4" solid wood side rails for attaching counter tops. All cabinets have 3/4" x 2 9/16" wood hanging strips for attaching cabinets to the wall. Wall cabinet tops and bottoms and base cabinet bottoms are glued and fastened into dados in the cabinet sides and frames. Standard interior is wood grain birch vinyl.

**Finished "Furniture" Ends.** Cabinets with finished ends are constructed with 5/8" plywood, flush with the face frame and finished in the same color.

**Shelves.** Cabinet shelves are 3/4" thick industrial board with vinyl applied to both sides. The front edge is banded to match. Wall and base cabinet shelves are adjustable, full depth, and are held in place by metal shelf (spoon) clips.

**Doors.** Cabinet doors are available in many different styles, including solid panel, mortised and tenoned or mitred. Hinge and overlay options are available. Create your own look with a choice of edge profiles, panel profiles, and frame size.

**Drawers.** Drawer boxes are 5/8" solid hardwood dovetailed construction with an eased top edge and 1/4" maple plywood bottom. Guides are Hettich Quadro (full extension - silent close) rated at 100 lbs. mounted to cabinet sides using the **EZ<sup>®</sup>STAL** system. 1/2" thick drawer bottoms available.

Finish/Wood: Parchment Maple and Ebony Maple  
Door Style: Newcastle

## Quality Built to Last a Lifetime®

When it's for a lifetime, it had better be superb. And that's the way it will be when you work with Holiday Kitchens. Yes, we're unmatched in the industry; yes, our materials are second to none; and yes, our craftsmen and our dealer-partners deliver unconditional quality everyday.

How do we do it? Well, we're resourceful – just like you. We operate our own lumber mill so we have a stake - right up front - in your kitchen. This direct access and control yields a variety of cabinets, doors, drawers and components within a vast variety of budgets. Dreaming of a lifetime of quality in your new kitchen? With Holiday Kitchens, the dream comes true.
