

NORTHWEST CABINETS, INC.

Freedom to Dream

Saffron Cherry Cabinetry

Working together with a skilled custom cabinet maker is one of the most rewarding aspects of building or remodeling your home. Northwest Cabinets, Inc. was founded by skilled craftsmen who take pride in working with you to design and create the dream you've always envisioned for your home or office.

At Northwest Cabinets we fit together each aspect of the building process like an intricate puzzle. You can have the freedom to dream while we coordinate the measuring, material and construction.

Quality Craftsmanship

Creative Distinction

Unlike most manufacturers, "Northwest Cabinets took the time to come to our new home to listen to our ideas and offer expert advice. With their advanced technology, they were able to provide on-site 3 dimensional drawings that incorporate our unique ideas."
~ Hugh Welle (Front Cover Photograph)

The Cherry cabinetry below and to the left evokes a flair of luxury in a more formal cooking space. The deep, rich finish of the cabinetry adds an elegant aspect to a clean and crisp design of staggered cabinet heights and depths. No matter the design, wood, or finish, Northwest Cabinet's kitchens and dining areas lend to the thought of a warm and inviting dining atmosphere.

Granite Counter Tops

State of the Art Equine

Commercial Casework
Pionite Laminate

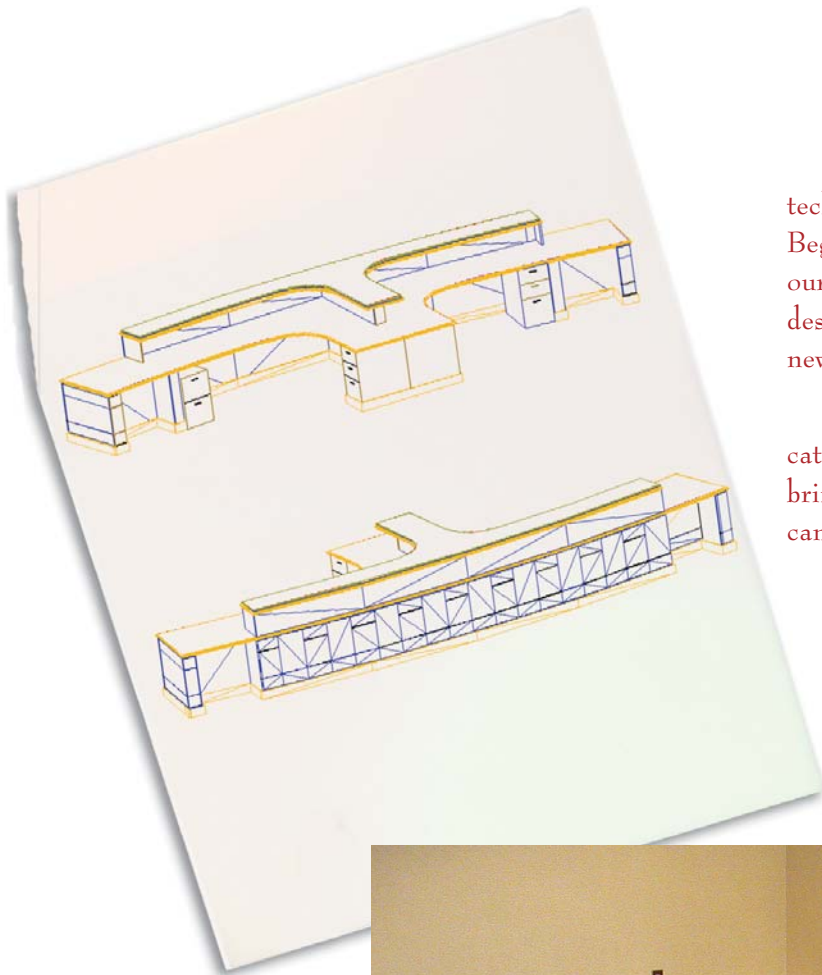

Summer Set Oak
Natural Oak Accents
Corian Solid Surfaces

Northwest Cabinets believes a great first impression is essential to any individual business. We can help design an organized and professional atmosphere which clients and employees can find inviting and comfortable.

Equipment & Technology

Northwest Cabinets utilizes state of the art equipment, technology and products to turn your dreams into reality. Beginning the process with computer generated drawings, our CNC machining and skilled craftsmen will bring the design to life for our experienced installers to build your new kitchen, bath, office, or den.

Northwest Cabinets offers hand rubbed staining and catalytic varnish. The finest finish available today is used to bring out the rich, natural beauty of our products which you can be proud of for years to come.

DuPont™
CORIAN®
SOLID SURFACES

Famous for its strength and flexibility, hickory cabinetry adds vibrant grain patterns and dramatic color variations to a kitchen or dining area.

Wood Edge, P-lam Tops**

"In addition to the quality craftsmanship, I was impressed by Northwest Cabinets willingness to provide an on-site layout to assist with coordination of electrical, plumbing, and mechanical elements prior to fabrication. This was essential in pulling all aspects of construction together to result in a superior final product."
~ Paul Surdez, Surdez Construction

Time Honored Classics
And

The classic appearance of oak cabinetry has long been a popular choice for many a home or office. This traditional high-performance style is built to last, ensuring longevity as well as beauty.

"By taking the time to listen and customize our project, Northwest Cabinets, helped us achieve the personal statement we were looking for."
~ Hugh Welle (Back Cover Photograph)

Time Tested Quality

Who are we?

Northwest Cabinets, Inc. is a family owned and operated custom cabinet business. We have been manufacturing residential and commercial cabinets for over 30 years. We are a company small enough to focus our full attention on individual projects, yet big enough to meet demanding schedule requirements of large scale commercial jobs.

Northwest Cabinets is non-reliant on outside suppliers. We make it ourselves; we install it ourselves, and we hold ourselves accountable. All products are manufactured to meet each individual's specifications, as we work directly with architects and owners in designing cabinetry. Installation requires skill, diligence, communication, and service. Our reputation for job site performance is exemplary.

Our primary goal at Northwest Cabinets, Inc. is to exceed our customers' expectations. We strive for no less than excellent customer service and superior craftsmanship.
